HOW TO BUY SCANX AI TOKEN?

To embark on your journey with SCANX AI, the foremost step is to create a wallet that is compatible with the ETH Chain. Ensuring the safety and security of your assets is crucial, so make sure to meticulously follow the setup guide and take the necessary precautions to back up your recovery phrases.

For a hassle-free experience, we suggest opting for one of the below wallets, which are known for their simplicity and user-friendliness:

Desktop/Web Browser:
- MetaMask - (Guide)

Mobile/App:
- Trust Wallet - (Guide)
- SafePal - (Guide)
- MathWallet - (Guide)
- ONTO Wallet - (Guide)
- TokenPocket - (Guide)
- BitKeep Wallet - (Guide)

Remember - NEVER, under any situation, should you ever give someone your private key or recovery phrases.

The native tokens of ETH Chain are on ERC20. To do most things on Etherium Chain, you will need to pay gas, which comes in the form of ETH.

To get ETH tokens, we recommend the below ways:

💰 **Binance.com** - You can withdraw tokens as ERC20 via your Binance account (if you have one). Bear in mind you need an account to do so.
